Article 15 Sufficiency of tender prices

Prices are fixed and not subject to revision during the first year of the Framework Contract.

From the beginning of the second year of performance of the Framework Contract, each price may be revised upwards or downwards each year at the request of one of the parties.

A party may request a price revision in writing no later than one month before the anniversary date of entry into force of the FWC. The other party must acknowledge the request within 14 days of receipt.

At the anniversary date, the contracting authority must communicate the final index for the month in which the request was received, or failing that, the last provisional index available for that month. The contractor establishes the new price on this basis and communicates it as soon as possible to the contracting authority for verification.

Price revision is determined by the formula set out in this article and using the trend in the harmonised indices of consumer prices (HICP) "Spain" / "European Union - 27 countries (from 2019)" published at <https://ec.europa.eu/eurostat/web/hicp/data/database> under HICP (2015 = 100) - monthly data (index) (prc_hicp_midx).

The price revision is calculated using the following formula:

$$Pr = Po \times Ir/Io$$

Where,

Pr = revised price;

Po = price in the original tender;

Io = index for the month corresponding to the final date for submission of tenders;

Ir = index for the month corresponding to the date of receipt of the letter requesting a revision of prices

Article 17 Patents and licences
